PROFILE

Technology professional with experience across software development, enterprise operations, technical support and digital solutions. Experienced with Java, Spring Boot, Angular, TypeScript, Node.js, REST APIs, Python, databases, and Docker, with a strong foundation in troubleshooting, problem solving and working with enterprise systems. Currently at Cognizant Kraków in a delivery-operations role within a global environment, working with strict quality and deadline standards. MSc in Business IT from WSB Merito University, Poland, with an MSc in Cybersecurity in progress, and Cisco DevNet Associate certified. Strong English, French and Arabic communication skills, with an interest in applying my technical and operational background to security technologies and enterprise security solutions.

TECHNICAL SKILLS

Frontend & Mobile: Angular, React, Flutter, JavaScript

Backend & APIs: Java, Spring Boot, Node.js, Express.js, REST APIs, SOAP, Python, PHP

Databases & Cloud: PostgreSQL, MySQL, MongoDB, SQLite, Firebase, AWS, Amazon S3

CI/CD & Tools: Docker, Git, automated testing, regression testing, Jest

Technical & Operations: Network administration, enterprise systems, troubleshooting; issue triage, root-cause analysis

Ways of Working: Agile/Scrum, stakeholder communication, documentation, process improvement, effort estimation, mentoring

Spoken languages: English & French (Advanced) , Arabic (Fluent) , German (Basic)

WORK EXPERIENCE

Senior Process Executive

Apr 2025 – Present

Cognizant, Kraków

- Handle high-value client cases end-to-end in English, Arabic, and French, while consistently meeting strict quality and deadline targets.
- Investigate recurring issues, identify root causes, and improve internal processes and resolution workflows.

Full Stack Engineer

Jan 2023 – Jun 2023

MAS Group — Tunisia

- Built a construction management platform using Angular and Java/Spring Boot REST APIs and designed relational models with Spring Data JPA.
- Contributed to Agile delivery, client demonstrations and feature releases.

Developer

Dec 2021 – Mar 2022

Rutilea — Tunisia

- Worked with Node.js REST endpoints and Angular interfaces through implementation, testing and Git-based review.

Technical Support Intern

Jun 2021 – Aug 2021

Tunisie Telecom — Tunisia

- Resolved over 250 technical support tickets and assisted with network-system setup, troubleshooting and escalation

EDUCATION

MSc, Cybersecurity — ISI, Tunisia — In progress

MSc, Information Technology in Business — WSB Merito University, Poland — 2024 – 2026 | Grade: 4.6/5

BSc, IT— Development of Information Systems — ISET Chargaia, Tunisia — 2020 – 2023 | Graduated with Honors

SELECTED PROJECTS

Web Developer — Drap.tn

Dec 2023 – Jun 2024

Production brand site for custom-made shirts with JWT authentication, encrypted data handling and Jest unit testing.

Full-stack Developer — First One

Nov 2023 – Apr 2024

Transaction platform with real-time updates and secure payment processing over SOAP — enterprise integration focused on message contracts and error handling.

Full-stack Developer — Studentors

May – Sep 2022

Cross-platform educational mentoring app with a shared backend and secure data layer serving web and mobile.

CERTIFICATIONS

DevNet Associate, Cisco Networking Academy (2024) · **ISET Innovation Awards “2IA”**, selected for project innovation (2021)
